

RHODE ISLAND RED CHICKENS

Kentucky Experiment Station Finds More Good Qualities Than In Asy Other Breed.

We have just closed a series of experiments extending over a period of two years with 100 Rhode Island Red hens. Rhode Island Reds are a comparatively new chicken, having only been admitted to the "Standard" by the American Poultry association is

Rhode Island Red.

February, 1904, but as a result of the experiments conducted at this station we have no hesitation in saying that they have more practical good points combined with fewer undesirable qual- in America are used in France and ities than any other chicken. They Italy to obtain the delicate flavors for at nine weeks; layers at 20 weeks.

hens average nine to thirteen pounds | which with proper use is delicious and each and cocks nine to thirteen with wrong use is atrocious. A garilo pounds. They are big red birds with pod is made up of a number of little yellow legs. The males are a rich these, peeled and brulsed, is enough cherry red and the hens a lighter qualities of the Leghorn, the vitality of the Malay Game and the heavy in, but with bare legs.

Their color does not show soil. They are a desirable table fowl at any age, garlic. This flavor is necessary for having oblong bodies, wide, deep, full all sauces that go with spaghetti; a plump breasts and yellow sign. They beef steak rubbed with garde before mature early, are very hardy and will it is cooked is vastly improved, and stand severe winters and continue lay- two cloves of it put into incisions in a ing. They are good hustlers and bug leg of mution or lamb to be roasted Dr. hunters and require less feed than will improve them wonderfully. Two ing for me." (Signed) Miss Lu Johnand excellent mothers, although at to the flavoring, and if a tablespoonful Island Reds can be der try raisers would do well to devote ble stock with cream. their attention to this wonderful new chicken.-Horse Cave (Ky.) Expertment Station.

RAISE SQUABS AS SIDE LINE

Industry Can Be Made Quite Profitable With Proper Management-Start With Pure Breed.

An advertisement lately for a bunch of common pigeons is a good illustra- green pepper, several alices of bery tion of the way some people get into the squab business the right way. Any person who starts squab raising for profit with common pigeons leaves behind all chance for success. Imagine a breeder starting with a smallbodied bird as the common pigeon for market breeding, when the market to date is demanding a nine and tenpound-to-the-dozen squab! Even when there is a scarcity of squabs the com-

Pair of Homers.

mon pigeon is a poor seller, and when the offerings increase there is no demand for such stock. It is just this kind of novice that is responsible for "knocking" the squab industry, and also the reason for some of the fallures.

Many try to put the squab business in the same questionable class as the Belgian have and others, but even that animal had to suffer for many things human beings were responsible for. It is a sure thing that the squab business as a side line to poultry will give good returns when business ideas and methods are applied. There are many who have been at it for years, and, while not making a big cry over results, keep right at it year after year, saying but little, but surely getting good results. Americans are not in the habit of continuing any losing venture many years.

INTO THE STOCK POT

RECEPTACLE FOR ALL LEFT-OVER MEATS AND BONES.

Clever Housekeeper Allows Nothing to Go to Wasts-Delicious Flavors That May Se Imparted by Judicious Use of Herbs.

All left-over meats and bones in tresh condition can be used for the stock pot. The bones from roast meat and the giblets and carcasses of soultry are especially good. The giblets include not only the gizzard and heart of the fowl, but the neck, the wing pintons, the head and feet. The beads must be skinned, carefully washed, and the bills and eyes cut off; the tiny morsel of brain gives the broth an extra succulency. To clean the feet, first cut off the nails and let. them lie in boiling water for ten minutes, after which the skin can easily be removed. But also soak them in salt and water to remove the barnyard odor before putting them on to cook. Chicken and turkey feet are gelathous and add a good deal to the quality of soup stock. The feet and heads of ducks and goese, however, are not good for the soup. After collecting all the material that can be bad, weigh it and add a quart of water to each pound, putting in two or three carrots, one medium-sized onion, several celery stalks, a few sprigs of parsley and sait and pepper. Cook slowly until the meat falls to rags, skimming off grease carefully for, if allowed to remain this will give the stock a rank taste. Strain while hot and when cold cover the vessel and put away in a cool place.

A great many herbs and spices whose usefulness is rarely considered Broilers at seven weeks; fryers which the French and Italian dishes are famed. REPATRIATED.

HE HAD \$100.00 IN CASH IN 1909; NOW WORTH \$8,000.00.

My parents were originally Canadiana from Essex County, Ontario. I was born in Monroe County, Michigan, from which place I moved to Red Lake Falls, Minnesots, where I farmed for 22 years. I sold my farm there in the summer of 1903 and in September of dry spot. At soda-fountains or carbonthat year came to Canada with my ated in bottles-50 everywhere. wife and eight children. I had about stand. My left limb \$400 in each, team of horses, a cow, a few sheep and some chickens. I took up a quarter section of land near Jack Fish Lake, Meets P. O., and later on purchased for \$2,000.00 an adjoining quarter section. 'I have now 48 head of cattle, a number of horses, good buildings and consider my holding is worth at least \$8,000.00. My children have raised from \$300 to \$500 worth of garden truck each year since we have been here. I have never had a poor crop and have never had one frosted. My wheat has averaged from 25 to 30 bushels per acre with one or two years considerably more. My oats have always yielded well up to 50 bushels per acre and once or twice as high as 85. My cattle have never been stabled in winter, and do not need it. I consider that this country offers better opportunities for settlers than anywhere I have ever been. I am sure that almost any person can come here and buy land at may \$15.00 per acre and pay for it in one crop. My experlence is that if a man farms his land in the right way he is not likely to have his crop frosted.

Most of the settlers in my district are Americans and Canadians and I know lots of them who came here with little or no capital who are now doing well, but I do not know of any who have left through disappointment or becoming discouraged, have returned to their former homes.

IF YOU HAVE A SICKLY

The family with young children that is without sickness in the house now and then is rare, and so it is important that the head of the house should know what to do in the little emergencies that arise. A child with a serious aliment needs a doctor, it is true, but in the majority of instances, as any doctor knows, the child suffers from some intestinal trouble, usually constipation.

There is no sense in giving it a pill or a remedy containing an opists, nor is flushing of the bowels to be always recommended. Hather give it a small dose of a mild, gentle laxative tonic like Dr. Caldwell's Syrup Pepsin, which, by cleaning out the bowels and strengthening the

W. F. YOUNG, P. D. F., 210 Yemple St., Springfield, Mana-

Is only one of many symptoms which some women endure through weakness or displacement of the womanly ergens, a Mrs. Linzie White of Memphis, Tenn., wrote Dr. R. V. Pierce, as follows :

"At times I was hardly able to be on my feet. I believe I had every pain and ache a woman could have. Had a very bad case. Internal organs were very much diseased and my back was very weak. I suffered a great deal with necrous headaches, in fact, I suffered all over. This was my condition when I wrote to you for advice. After taking your 'Favorite Prescription' for about three months can say that my health was never better."

Dr. Pierce's Favorite Prescription Is a positive cure for weakness and disease of the feminine organism. It slays inflammation, heals ulceration and soothes pain. Tones and builds up the serves. Do not permit a dishonest dealer to substitute for this medicine which has a record of 40 years of cures. "No, thank you, I want what I ask for."
